

## ITEM CATALOG

*We adhere to the American Academy of Pediatrics Guidelines for safety standards on items that we distribute. At EBC, we will make every reasonable effort to adhere to these safety regulations. You can help with this by ensuring the accuracy of your orders, especially with regard to weight, height, and age of each child on each order.*

*Note: Two items that we will never have are walkers with wheels (not safe!) or bath seats with suction cups (also not safe).*

We do **not** have a limit to the number of items that you may order. However, please refer to the Ordering Guidelines Handout below for restrictions on certain items.

Items are listed by category. Reason: We have volunteers who are specialists in various areas, and this helps them stay organized. It also helps us with our inventory system.

At EBC, we distribute between 1500 – 2400 items **each week**. We manually check each item on every order to be sure that it looks correct and has all the needed information.

- ❖ To help us out, please ensure that each item you order has its own line item, and that you've double-checked everything to be sure it is for the correct child, size, height, weight, etc...
- ❖ If you order something very specific, please let us know in the comments section if a substitute item would be ok. E.g., if you ask for Similac, but Enfamil would also be ok.

#### **Additional Notes on Car Seats**

- ❖ After you input the child's accurate weight and height, EBC will assign the appropriate and safe car seat for that child.
- ❖ EBC has two Certified Child Passenger Safety Technicians on staff who can help answer questions if needed.
- ❖ Convertible car seats are for kids 5lbs – 40lbs. If you order an infant car seat, you may get a convertible, which is also appropriate for an infant who is 5lbs or more.

- ❖ Children must be at least 4 years old and weigh 40 lbs to get a **Booster** Car seat.
- ❖ If requesting an infant car seat/stroller combo: Order both, and in the comments, write “combo”
- ❖ It is helpful if you print a picture of a car with a LAP belt only and one with LAP and shoulder belts, to make sure the family understands that this questions is about the CAR (not the car seat itself) so that we give them the correct car seat. (See photos on last page of packet)
