

## Safe at School Sewing Drive!

Sew masks for children to wear during the school day, allowing them to stay healthy, continue to learn, and thrive!

### Instructions:

- Sew 5 masks so one child will have one mask for each school day.
- Use patterns that are fun and friendly, this encourages children to keep them on!
- Use materials as recommended by public health officials.
- Our greatest need is masks for children age 2 - 4 but we also accept masks that fit children age 5 - 7.
- The attached instructions are guidelines. We trust sewers to use their best judgment regarding the materials they have available.

# ShannieMakes: 3 Piece Style Face Mask Extra Small

Scale 4cm | \_\_\_\_\_

Size: XS Age 3 and Under

**The mask is not recommended to use on babies or toddlers.**

This face mask was designed with affordability, washability and reusability in mind. This is not a medical/surgical grade face mask, but it is good enough to protect the face from dust particles and some odours. You can use a medical/surgical grade mask with this for extra protection.

XS Elastic Cord 2 x 18cm

Recommended Fabrics:

Gore-Tex is breathable and water repellent/waterproof.  
Some Micro-Fibre Taffeta fabrics are breathable and water repellent/waterproof. Please check manufacturers instructions. It is best to test the breathability of the fabrics on your face before buying/cutting.

Spraying fabric with waterproofing spray is not recommended because of the close proximity of the chemicals next to your respiratory system.

Inner and lining fabrics such as cotton, double gauze and any fabrics with absorbing properties are the best choices, as well as creating a layer for you to breathe.
